

Series EJX00 - Nozzle Sizing
100 PPD (2 kg/h)

Disinfection Products

NOTE: For high altitude operation when using the ejector with the 480 and 200 Series vacuum regulators, with a supply pressure of 150 PSIG or less, increase the supply pressure by 1.0 PSIG for each 1000 feet above sea level for proper operation.

Design improvements may be made without notice.
